Dear Harold:

I was quite interested in your detailed and informative letter of 3 April 1970. I very much hope that you are successful in pursuing to fruition some of the exciting and revealing new leads that you have recently discovered. If this case is ever to be re-opened and re-evaluated, it will be due to the continuing efforts of a few people like yourself, who refuse to leave the truth obscured and buried.

I hope that I can visit with you in Maryland sometime soon - perhaps, this summer. I should like to review the various materials that you have in order to decide whether or not I can be of definite assistance to you as a scientific expert.

I shall try to work out such a visit; in the meantime, I shall look forward to hearing from you if any new and significant developments occur.

Thank you.

With kind regards.

Sincerely,

Cyril
